PRESIDENTS REPORT

Hi Members,

It was good to see so many of our Club members and also the Chevy Club of NSW members come to the “Lost in the 50’s” run that was held on the 19th of August.

It turned out to be a great day with many other car clubs in attendance. Finding car parking was a little difficult but it all turned out well.

It will be sad to see these classic cars of the 50’s all going to auction soon but we know that they will be purchased by great car enthusiasts.

We will be having the Sponsors lunch together with the X’mas party on the 18th of November at midday at Enzo’s Cucina - 2/795 Fifteenth Avenue, Kemp’s Creek. This will be a combined lunch and we would appreciate all members and their partners and children who wish to attend to respond to me no later than the 12th of October so we can finalise the numbers with Enzo’s.

We are in the process of finalising what needs to be done for our annual Camden Car Show which will be held on the 21st of October. We would like to see as many Members as possible volunteer to help out on the day.

We would also like to thank Cruzin magazine for advertising our Camden car show for free.

Regards

John Fenato

Planning for Sponsors dinner TBA

Sponsors are being sought as well as existing ones maintained

CVS & HVRs Schemes

As a result, from the registration issues raised by Gary Wright .

GW is inspecting cars to judge CVS/HVRs rego acceptance and sorting out paperwork for renewal of rego for all members.

Authorized club members doing the same Gary Wright, Aldo Mazzucco and Ken Taylor. The procedure for the form signature **MUST** be adhered to as has been printed many times in the magazine. Our 3 authorized signatories are able to sign the form and the renewal **CANNOT** be done without the correct procedure.

Reported that the RMS have also made mistakes by registering cars and handing out the incorrect plates.

No Hand-written pink slips acceptable

Blue slip is valid only for 42 days

No more rego labels will be issued on CVS/HCRS

Make sure that the engineering certification notes are put on the rego papers

CVS/ HVRs scheme will notify RMS on in registered cars and the police will fine heavily

EDITORS NOTES

Hi Guys and Gals,

Welcome to the September edition of our magazine.

The Lost In the 50's run was a great day out. Please see the report on page 14 & 15.

Brynn Miller has organised a Chevrolet Breakfast at Nepean Rowing Club on the 16th of September, with a run to Clarendon swap meet afterwards. All details are on the flyer on page 12. It should be a nice change of format and there has been a lot of interest so please show some support towards it.

I hope you like this month's cover photo of Charlie Pace's convertible on the Lost In The 50's run, taken by yours truly from John Keogh's 4dr hardtop. A big thanks to John for letting me hitch a ride with him for the day. John has been putting a few k's on the big 502 and he was rewarded for his efforts at last month's Penrith Paceway with a Top Ten for the night. As I write this, John is currently in on a whirlwind trip over in the US of A! There may be some other toys to come!

Happy Cruising

Ben

Lost In The 50's The Classic Car Museum

Sunday 19th of August turned on the weather for our club cruise to the Lost In The 50's museum. We all met at McDonalds Thornleigh for the 120km trip north to Cameron Park. Located in an industrial estate, the streets were packed with a great variety of muscle cars for street after street. We got a lucky spot and only had to walk about 800m to the entrance gate! The place is jam packed with cars and memorabilia as soon as you walk down the driveway. Inside there is so much to look at the mind boggles. More than just cars and bikes, there are bicycles, gas pumps, and rock n roll gear from an era gone by. And come the end of October it will all go under the hammer. A great time was had by all and after we were all done, a few of us headed home while the others went for a feed at the local pub just down the street. The blue 2dr '57 pictured below left reportedly has just 117 miles on the clock! It will be interesting to see if it fetches the alleged \$500,000 reserve!

The Pace-Way

Charlie Pace has been a car guy all of his life. As a young bloke he built several old Holdens and Hot Rods, and he drove 'em regularly and he drove 'em hard! Distance and weather conditions have never dunted Charlie whenever duty calls. His genuine 1957 convertible is a prime example of this. A multiple award winning car at many prestigious events, Charlie has not been affraid to drive

1000's of kilometers, day or night, rain or shine. The car has everything - 427c.i injected small block, 4 speed auto and 9" rear. Not to mention CD player, air conditioning, power windows, reversing camera, and it's running on 18" and 20" rims. Not a guy to do things by halves, Chalie has been putting a few more toys in the garage over the years. A 1955 4dr with a strong 350, top loader 4 speed box and a 9" diff was added to the 'stock' a few years back. There is also a late model Ford mustang. Now there is an original LJ XU1 Torana, in a rare gold colour, and a really sweet EH Holden with a set of tripple SU carbs. Talk about setting the Pace!

HISTORIC AND CONDITIONAL (MODIFIED) REGISTRATION

HISTORIC AND CONDITIONAL (MODIFIED) REGISTRATION INCLUDING 60 DAY LOG BOOK

To be eligible for historic & conditional registration you must be a member of an RMS approved automotive car club such as ours. Membership of our club is \$50 per annum.

Historic and conditional registrations are both eligible for the 60 day log book trial. The trial allows you to drive your vehicle on 60 individual days at your own discretion. Club events and club sanction runs do not impact on the 60 day log book use.

Fees for concessional registration are set by the RMS & are currently \$51 for registration including green slip plus a once off payment of \$40 for new plates. Conditional registration also attracts an additional annual fee of \$25 to the ACMC.

Personalised plates need to be surrendered, transferred, or placed on hold; the latter attracts a holding fee & any other ongoing rental costs. It is hoped that the RMS may allow personalised plates with conditional registration sometime in the future.

Historic registration (H Plate) is essentially for vehicles 30 years or older that have not been modified, some consideration maybe allowed for manufacture/dealer approved accessories, Limited safety upgrades and unavailability of original parts. In our club registration requires an annual Pink Slip.

Conditional registration (D Plate) is also available for vehicles 30 years or older that have been modified. The RMS have issued a set of guidelines (VSI No.6) that address many examples of what modifications may or may not require certification by an RMS certified engineer. For example an engine capacity increase greater than 20% or a total wheel and tyre diameter increase by more than 7% would require certification. Modified vehicles that do not need certification must have a once off Blue Slip, than an annual Pink Slip. Vehicles requiring certification require an engineer's report confirming the current modifications plus a Blue Slip, than an annual Pink Slip.

Please refer to the overleaf flow chart for further guidance and feel free to contact one of our three Plate Registrars for more information.

Kind Regards,

Gary Wright.

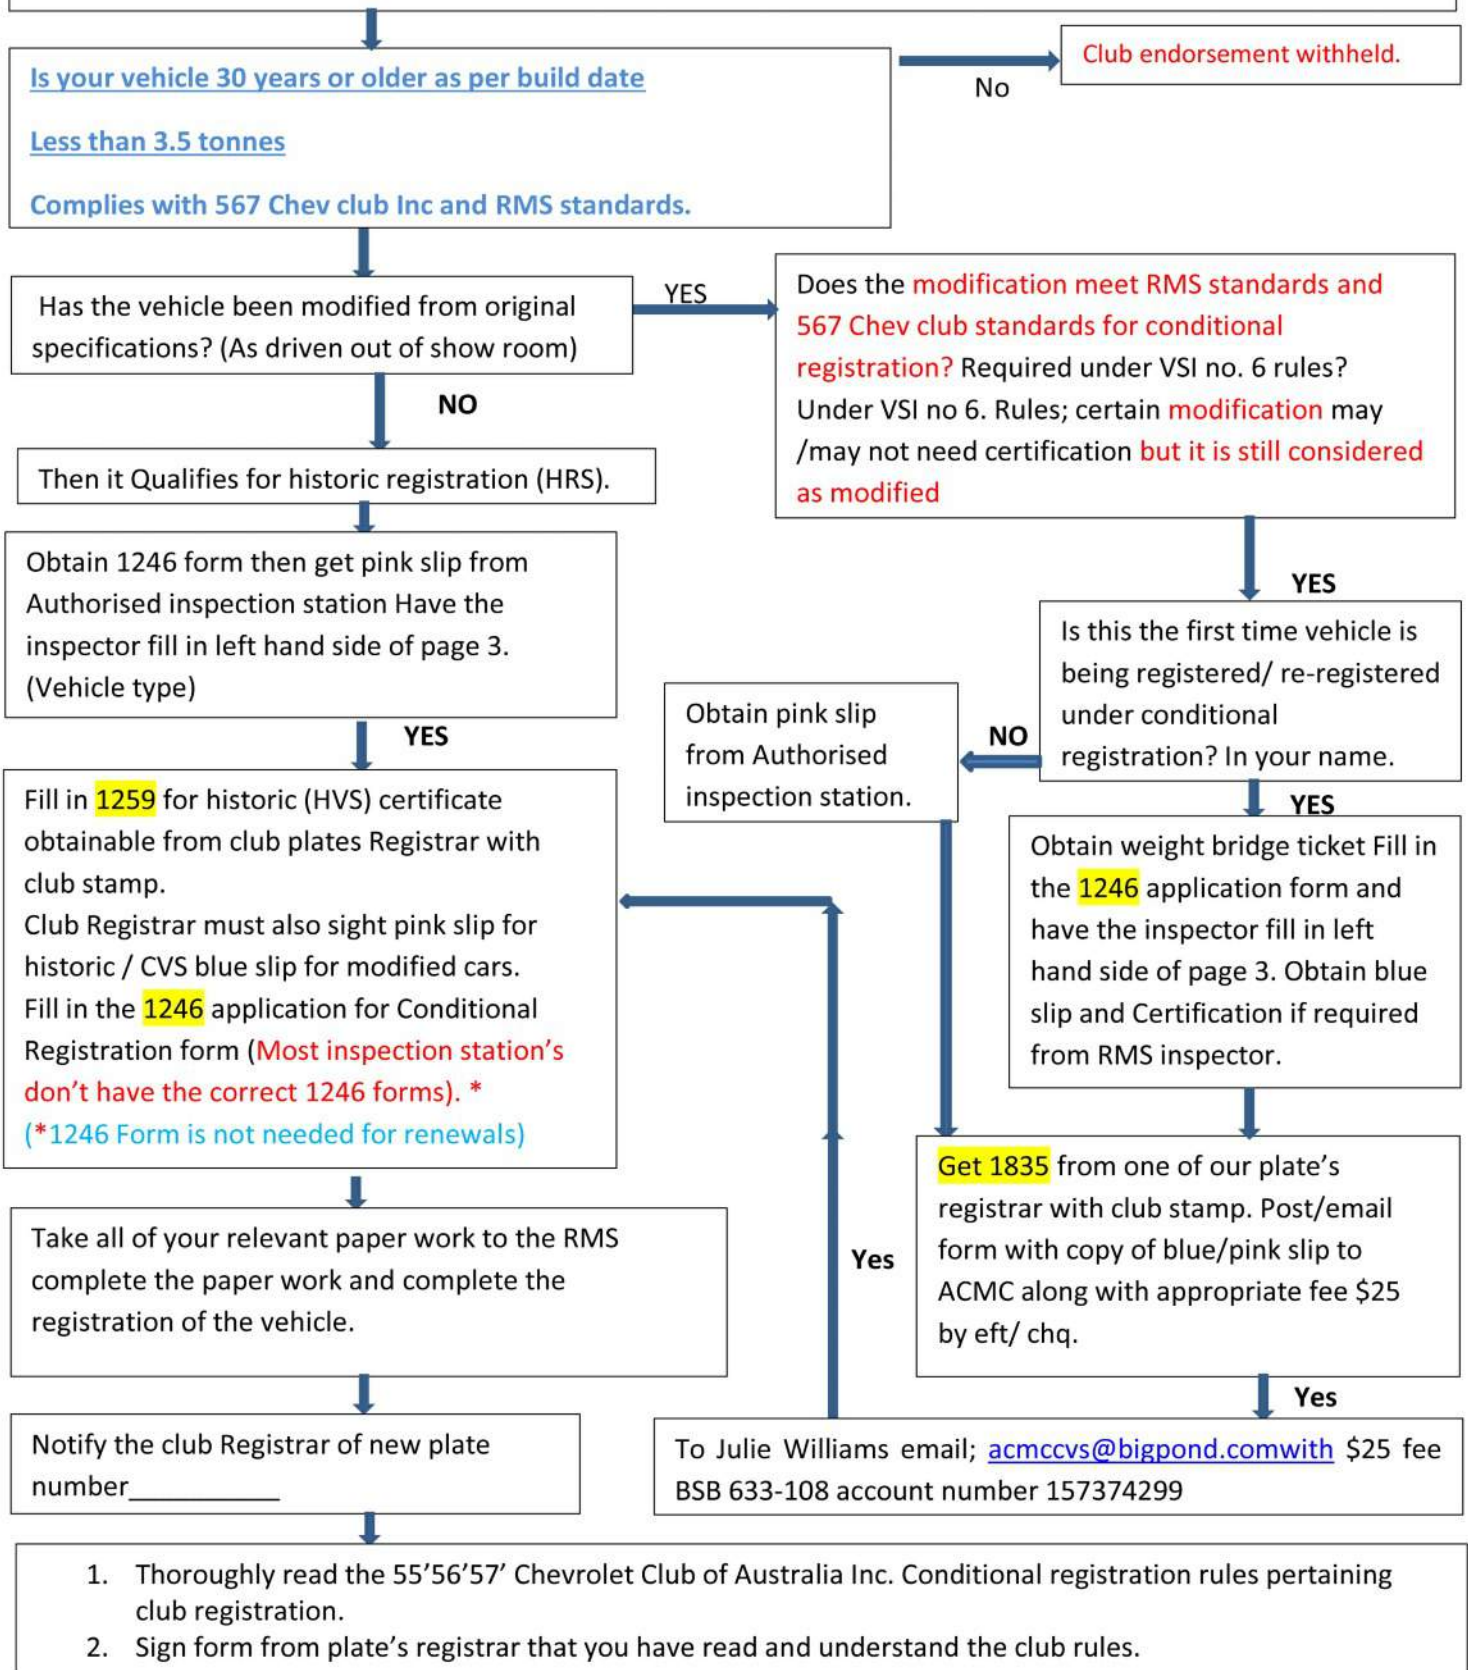

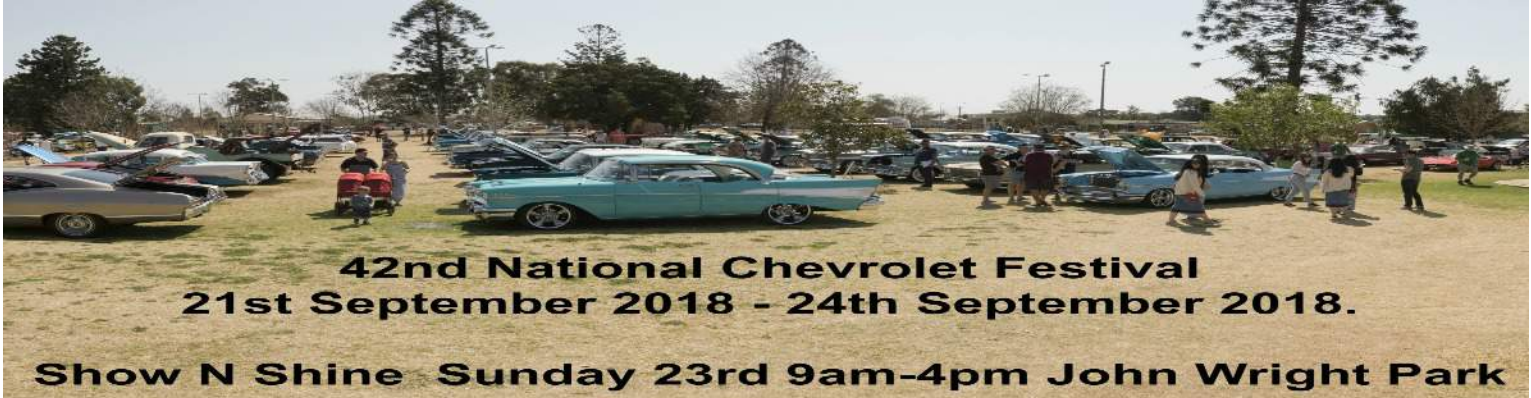

The 55'56'57' Chevrolet Club Of Australia Inc. Process for conditional registration schemes

Regardless of whether you are renewing or applying for the first time for Historic or Classic vehicle registration before you proceed you must be a financial member of the Club, live in N.S.W. and hold current NSW drivers licence, the vehicle must be garaged in NSW

Thoroughly read all of the Roads and maritime services (RMS) rules pertaining to the conditional scheme to determine if your vehicle complies with their requirements that suit your vehicle check [RMS web site](#)

There are two conditional registration schemes that apply to our cars One is Historic vehicle scheme (HVS) Or two Classic vehicle scheme (CVS) vehicles must be 30 years old as per build date,
